

# Teaching the We Thinkers! Curriculum Series with Fidelity

## Promote Social, Emotional & Academic Learning

By 4 years old, children are expected to work & play with their peers in groups as they begin to learn academic skills of reading, writing & math.

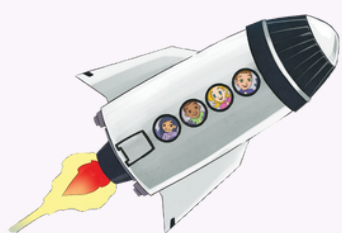

## Help Students with Different Learning Styles

For most children this is easy, and we, the adults, take it for granted. Other children may struggle to play or learn together, and some don't know what to do when they get excited, mad, or scared.

## Learn How with the We Thinkers! Series

- Help children learn about themselves & others.
- Learn strategies to help students better manage their emotions.
- Provide students with concrete strategies and visuals to teach collaboration, learning together & making friends.

## Learn With Us!

New 2-hour short course with expert speaker & *We Thinkers!* co-author, Nancy Tarshis!

- ✓ Discover how social attention, observation, and interpretation are the foundations of building social competencies.
- ✓ Unpack the connections between social competencies, the Social Thinking Vocabulary, and social and academic learning.
- ✓ Connect how play-based learning fosters social awareness, self-awareness, and self-regulation in the 4- to 7-year-old child.
- ✓ Learn a variety of tips, Dos and Don'ts of teaching this award-winning series.
