

RIDER SAFETY & ACCESSIBILITY GUIDE

WELCOME

At *Hersheypark*[®], we are committed to providing all of our guests a safe, enjoyable, and memorable visit. Many *Hersheypark* attractions are dynamic and thrilling. Each attraction is rated for its special features, such as high speeds, sharp turns, sudden slopes, drops, twists, or other dynamic forces. Some attractions may have restrictions for guests of exceptional size (height or weight). Please carefully review and consider the requirements and restrictions of our attractions (which are listed in this Guide and at the entrances to our attractions) to determine if you or members of your party can safely participate. If you have any impairment or condition that would prevent you from properly using the seating and safety restraints or from following any safety requirement, **DO NOT RIDE**. Guests requiring accommodation are invited to visit Accessibility Services located outside the Front Gate or inside the Family Health & Services Center in the *Pioneer Frontier*SM area next to the *Play Dome*SM Arcade, or any Guest Services locations inside the Park for information on accessibility and other services.

This Rider Safety & Accessibility Guide provides information on the recommendations and restrictions for each attraction. Please read through this Guide to learn more about the services we provide, as well as particular attraction information. Should you have any questions, please do not hesitate to stop by our Accessibility Services location outside the Front Gate or inside the Family Health & Services Center in the *Pioneer Frontier*SM area next to the *Play Dome*SM Arcade, or any Guest Services locations inside the Park for information on accessibility and other services. **Please Note:** The information in this Rider Safety & Accessibility Guide is subject to change. Please feel free to visit our Accessibility Services or Guest Services locations for current information on accessibility and services.

ATTRACTION ACCESSIBILITY PROGRAM

The *Hersheypark* Attraction Accessibility Program is designed to allow guests to participate in the enjoyment of our Park as much as possible. Each *Hersheypark*[®] attraction has been evaluated for the criteria necessary for an individual to ride safely. Our ridership criteria (set forth on page 12 of this Guide) is based on the requirements of the attraction manufacturers and the ability of guests to utilize all safety restraints and devices as designed, while maintaining the proper riding position throughout the duration of the ride. It is our policy to allow anyone to ride who meets all of these requirements. Our Attraction Accessibility Program matches the individual abilities of our guests to the ridership criteria for each attraction. The following applies to guests who wish to participate in our Attraction Accessibility Program:

1. Guests can enroll in our Attraction Accessibility Program at Accessibility Services located outside the Front Gate or inside the Family Health & Services Center in the *Pioneer Frontier*SM area next to the *Play Dome* Arcade or any Guest Services location. Guests will be asked to complete and sign an Attraction Accessibility Questionnaire. Based on the responses to the questionnaire and following an interactive discussion with an Accessibility Services Agent or Supervisor, guests who have a disability or other qualifying accommodation need that prevents them from having extended wait times in our standard entrance/queue lines will receive an Attraction Boarding Pass with a list of attractions they may be able to enjoy.

GENERAL INFORMATION

2. Only those guests with mobility impairments (which generally require the use of assistive devices such as wheelchairs, electronic convenience vehicles (EVCs) walkers, canes, or crutches) and other qualifying accommodation needs will be enrolled in the Program and receive an Attraction Boarding Pass that will allow them (and up to three riding companions) to access attractions through the designated accessible entrances. This accommodation is designed to provide access to our attractions and not to bypass others waiting in the standard entrance/queue line. Additionally, participation in the Attraction Accessibility Program does not guarantee immediate access to the attractions listed on the Boarding Pass.

3. Based on the responses provided on the Attraction Accessibility Questionnaire and the interactive discussion with an Accessibility Services Agent or Supervisor, the Boarding Pass will allow guests (and up to three riding companions) to access our *Fast Track*SM attractions either through the *Fast Track* entrance/line or through the exit using a reverse boarding time system. All other attractions listed on the Boarding Pass can be accessed using the exit.

4. Guests using the designated accessible entrances will need to show the Attraction Attendant their Boarding Pass. The Attraction Attendant will verify that the attraction is listed on the Attraction Boarding Pass and that the guest meets all attraction rider requirements - including height. If the attraction is not listed or if the guest does not meet attraction rider requirements, the guest will not be permitted to ride. Guests may be required to wait several ride cycles prior to boarding. The guest qualifying for access to the attractions through the designated accessible entrance must ride the attraction in order for their companions to ride.

5. Only those guests with an Attractions Boarding Pass (and up to three riding companions) will be permitted to enter through the designated accessible entrance. All other guests, including additional members of the guest's party, will need to enter the attraction using the standard attraction entrance/queue line.

6. Requests for specific seating on attractions are subject to seat availability.

7. For those guests with a Boarding Pass that allows them to access our *Fast Track* attractions through the exit utilizing the reverse boarding time system, the reverse boarding time system works as follows:

- After enrolling in the Attraction Accessibility Program and receiving their Boarding Pass, guests may first enjoy any listed *Fast Track* attraction of their choice with little to no wait time by entering the exit. This will start the reverse boarding time system.
- Before boarding the attraction, the Attendant will write a time on the Boarding Pass that corresponds to the current wait time of the standard entrance/queue line at that attraction.

Ex. A guest arrives at *Great Bear*[®] at 12:00 PM for their first *Fast Track* ride of the day. If the wait time in the standard entrance/queue line at *Great Bear* is one (1) hour at that time, the Attendant will write the time "1:00 PM" on the guest's Boarding Pass.

GENERAL INFORMATION

- Guests will only be permitted to board the next *Fast Track* attraction of their choice at (or after) the appointed time (see previous point). Guests and their riding companions can use the interval time to enjoy other activities and benefits of the Park, including the many other attractions that are not part of the *Fast Track* Program that can be accessed using the exit with little to no wait time, shows, shops, games, dining outlets, and ZooAmerica® North American Wildlife Park.
- When the appointed boarding time arrives, guests may proceed to the next listed *Fast Track* attraction of their choice and board with little to no wait time. Guests will receive another appointed boarding time following the process set forth above.
- The appointed time for the next *Fast Track* attraction is valid until the end of the day. Guests are not obligated to board the next listed *Fast Track* attraction at the appointed time. Instead, the guest can return to the next listed *Fast Track* attraction of their choice at any point after the appointed time and still board with little to no wait time.
- Guests who want to re-ride the same *Fast Track* attraction can do so only at (or after) the appointed time they received when they boarded the attraction.
 - Ex.** Using the example above, if the guest wants to re-ride the *Great Bear*, the guest cannot stay on the ride or exit and immediately re-board the attraction. The guest can re-ride *Great Bear* again if they choose at the appointed time that was provided - 1:00 PM.

GENERAL INFORMATION

ATTRACTION SAFETY

Many amusement park attractions incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportion. These safety systems may place restrictions on the ability of an individual to safely experience an attraction. In addition, many *Hersheypark* attractions feature high speeds, sharp turns, sudden slopes, drops, twists, or other dynamic forces. Guests should be in good health and know their physical condition and limitations. Guests should not participate in an attraction if they know or suspect they may be pregnant, have high blood pressure, heart, neck, or back problems, motion sickness, recent surgery, or any other condition that may be affected by the features of the attraction. Guests should not participate in an attraction if they have an impairment or condition that would prevent the intended use of seating and safety restraints as provided or inability to follow any safety requirement. Guests who know or suspect that they have a pre-existing condition of any kind that may be aggravated by the features of an attraction are not permitted to ride.

All written and verbal safety warnings and instructions, including height requirements, for each attraction apply to all guests, including those participating in the Attraction Accessibility Program. Prior to boarding an attraction, guests must be able to demonstrate an ability to understand, participate, and follow all attraction requirements. This includes, but is not limited to, demonstrating an ability to maintain the proper riding position, paying attention to and complying with safety instructions, and properly using restraints and safety equipment. Park personnel reserve the right to deny entrance to an attraction based on safety considerations.

With the exception of *Dry Gulch Railroad*SM and Carrousel, all *Hersheypark* attractions require guests to transfer from their wheelchairs or other mobility devices to the attraction units. Guests who require assistance during their *Hersheypark* experience, including being lifted into or out of an attraction, will need to be accompanied by a Supervising Companion (as defined on page 11) or other member of their party who will be able to provide such assistance. Park personnel may not assist with the lifting or transferring out of wheelchairs or other mobility devices.

GENERAL INFORMATION

SAFETY WARNINGS

BEFORE EXPERIENCING AN ATTRACTION: PLEASE NOTE ALL SAFETY WARNINGS - BOTH VERBAL & WRITTEN - FOR EACH ATTRACTION

Pennsylvania Rider Safety Act No. 1994-58 requires that riders must obey all warnings and restrictions regarding rides and must behave in a manner that will not cause or contribute to injury of themselves or others. Failure to comply is cause for dismissal from the Park without refund.

Please note and comply with all written and verbal safety warnings and instructions for each attraction and follow all directions given by Park personnel, such as:

- Secure all loose articles (cell phones, keys, bags, wallets, stuffed animals, beverage containers, and other items) or leave them with a non-rider.
Guests are responsible for their personal property. More information about the Park's loose articles policy is on page 13.
- Please wait for all attractions to come to a complete stop before attempting to board.
- Please wait for the attraction to come to a complete stop before attempting to exit.
- Please exercise caution in boarding each attraction.
- Once seated, secure the seat belt, lap bar, and/or shoulder harness and keep them fastened until the attraction comes to a complete stop.
- Shoes are required on all attractions with the exception of *Bayside PierSM*, *Breakers EdgeSM Water Coaster*, *Coastline PlungeSM*, *East Coast WaterworksSM*, *Intercoastal WaterwaySM*, *Sandcastle CoveSM*, *Shoreline SpraygroundSM*, *The Shore*, *Tidal Force[®]*, and *Twizzlers Twisted Gravity*. Loosefitting shoes must be removed prior to riding the following attractions: *Great Bear*, *Skyrush[®]*, *The ClawSM*, *Wave Swinger*, *Whitecap Racer[®]*, *Hershey Triple Tower[®]*, and *Candyonium[®]*.
- Keep all body parts (hands, arms, legs, long hair, etc.) inside the attraction unit at all times.
- Remain seated facing forward in an upright position with your back and shoulders against the seat back and hold on until the ride comes to a complete stop.
- No picture taking or video recording while riding.
- Failure to comply with safety warnings and instructions may result in guests being denied entrance to an attraction and/or removal from the Park with NO REFUND GIVEN.

GENERAL INFORMATION

FIRST AID

The First Aid staff is located inside the Family Health & Services Center in the *Pioneer Frontier*SM area next to the *Play Dome* Arcade. First Aid has Registered Nurses and certified EMTs on site. For emergency help, please contact any Park personnel. Two additional First Aid Stations are located throughout the Park – one in *The Boardwalk at Hersheypark*[®], (Memorial Day - Labor Day) and in *Hershey's Chocolatetown*SM themed area.

FOOD & BEVERAGE

Hersheypark is committed to helping our guests with food allergies make the best possible dining choice during their visit with the help of our dining guide and specialty food offerings. Each food and beverage location is listed on our website and mobile App with menu items, ingredients and allergen information. Guests can bring Epi-Pens into *Hersheypark*.

While in the Park, our food and beverage staff will be more than happy to answer any questions our guests may have. We keep a list of ingredients at each location and our staff can supply guests with that information. Our interactive Park Map also denotes locations where allergen friendly food options may be located.

FOR GUESTS WITH A HEARING IMPAIRMENT

If you are not able to hear attraction loading and unloading instructions, please notify Park Personnel prior to boarding the attraction. Show scripts and written attraction safety speeches/directions are available upon request of Park Personnel.

GAMES

*Play Dome*SM and *Overlook*SM Arcades are accessible. Please see Park Personnel at these locations if assistance of any kind is needed.

GUESTS ACCOMPANIED BY SERVICE ANIMALS

Service animals are welcome at *Hersheypark* and *ZooAmerica*[®]. Service animals are defined as dogs or miniature horses that are individually trained to do work or perform tasks for, and to assist, people with disabilities. Dogs (or other animals) whose sole function is to provide comfort or emotional support do not qualify as service animals and are not permitted at *Hersheypark* or *ZooAmerica*. Service animals must remain on a leash or harness and/or under the control of their handler at all times and be house broken. If at any time a service animal demonstrates aggressive behavior towards other guests and employees, or displays other inappropriate or disruptive behavior, the guest will be directed to remove the service animal from the Park and/or *ZooAmerica*. Service animals may use any green space at the Park and *ZooAmerica* for voiding waste; however, the handler or another member of their party is responsible for cleaning up after the animal. Due to the nature of some attractions at *Hersheypark*, service animals may not be permitted to ride. Service animals are permitted on the Monorail, Carrousel (chariots only), *Kissing Tower*[®], *Dry Gulch Railroad*, Ferris Wheel, *Sunoco*[®] Classic Cars, and they are permitted to enter *The Boardwalk* water attractions up to the water's edge. Service animals will not be permitted to enter the water at any attraction. On all other attractions, someone in the handler's party must stay with the service animal while the handler rides the attraction. Employees are not permitted to take control of or responsibility for the service animal. Additionally, service animals must remain a reasonable distance from the resident animals at *Hersheypark* and *ZooAmerica*.

GENERAL INFORMATION

HAUNTED ATTRACTIONS, HOUSES, AND ZONES

Please see *Dark Nights™* Attractions listed on pages 27 and 28

PARKING

Hersheypark Entertainment Complex provides accessible parking spaces in our main lots. Parking is available on a first-come-first-serve basis. *Hersheypark* has 86 accessible parking spaces (52 spaces in the front Season Pass Holder parking lot adjacent to *The Chocolatier* Restaurant + Patio and 34 spaces adjacent to Tram Stop 2). From the parking lot toll booths, follow posted signs for accessible parking. Additionally, accessible trams routinely operate to transport guests from the tram stops to *Hershey's Chocolatetown®* plaza (near the main entrance to *Hersheypark*).

PARK TERRAIN

Although the natural terrain adds to the beauty of the *Hersheypark* landscape, it also creates some challenges. Our interactive Park Map identifies steep grades and stairs within the Park.

PERSONAL CARE ATTENDANT

For assistance with visiting with a Personal Care Attendant, please visit Ticketing Services (*Hersheypark*) or the Zoo Admissions desk (*ZooAmerica*).

QUIET AREAS

Several quiet locations have been identified throughout *Hersheypark*. These locations provide a nice break from sensory stimulation. The quiet locations are located at: Guest Services inside the Family Health & Services Center in the *Pioneer Frontier* area, and Accessibility Services in the *Kissing Tower Hill* area of the Park.

RESTROOMS

All restrooms identified on our interactive Park Map are accessible. If guests need space for a lateral transfer, one of the following restrooms should be used: next to *Trailblazer™* Catering, inside the *Tidal Force* changing rooms, in *The Boardwalk at Hersheypark*, in *Kissing Tower Hill*, and in *ZooAmerica*. Additionally, all-gender restrooms are available in *Midway America™* themed area, *The Hollow™* themed area, *The Boardwalk at Hersheypark*, at *Chick-fil-A*, and in the entrance plaza of *Hershey's Chocolatetown*. All restrooms at *Hersheypark* have basic changing tables. Guests that may need an adult-accessible changing table may stop at *Chocolatetown* First Aid/restroom, behind Main Gate Guest Services.

RETAIL

All shops offer assistance from store personnel to ensure that items are accessible. Ask store personnel for assistance in obtaining any hard-to-reach items.

GENERAL INFORMATION

SEGWAY® & GOLF CARTS

Due to the different pathway configuration and terrain as well as large crowds, that include small children and strollers, we cannot permit the use of golf carts or two-wheeled, self balancing electric vehicles, such as Segways, in *Hersheypark* and *ZooAmerica*.

SHOWS & DEMONSTRATIONS

All guests may enjoy all *Hersheypark* shows. Guests using wheelchairs or other mobility devices may enter the Aquatheatre from the upper or lower level entrances. Guests using wheelchairs or other mobility devices may enter the *Chevrolet Music Box Theatre* through the main entrance. Please speak with Park Personnel for assistance and direction. Accessible seating is limited; guests should arrive 20 minutes prior to show time if they need assistance from a host.

SMOKING

As we strive to accommodate all of our guests, designated smoking areas have been established throughout *Hersheypark*. *The Boardwalk At Hersheypark* and *ZooAmerica* are smoke-free.

WHEELCHAIRS & ELECTRIC CONVENIENCE VEHICLES

Wheelchairs and ECVs can be rented at *Hersheypark*. Both manual wheelchairs and ECVs have weight limitations of 450 pounds and are available on a first-come-first-serve basis. Quantities are limited. Guests must be 18 yrs. or older to rent a wheelchair or ECV. Failure to comply with the rental agreement is cause for surrender of the rental equipment or removal from the Park. *Hersheypark* reserves the right to refuse any guest rental of an ECV if that guest is unable to complete the on-site training or unable to comply with the restrictions of the unit. Guests are also invited to bring their personal ECV or mobility device (with the exception of golf carts and two-wheeled balancing electric vehicles, such as a Segways) to *Hersheypark* and *ZooAmerica*. Guests visiting *The Boardwalk at Hersheypark* may utilize an aquatic wheelchair at certain Boardwalk attractions. Please see a lifeguard at *The Boardwalk at Hersheypark* for more information.

ZOOAMERICA

Automatic doors are located at every building entrance. Accessible walkways and ramps allow access to all exhibits. Some viewing angles are not accessible, but in every case alternative-viewing areas provide excellent vantage points for viewing the wildlife. Please see *ZooAmerica* personnel for assistance.

ADDITIONAL INFORMATION

PROSTHETICS/BRACES AND CASTS

Due to the individual designs of attractions, guests with casts or braces may have difficulty fitting properly into the restraints of certain attractions. Any guest with a cast who cannot be properly restrained will not be permitted to ride. Any guest with a hard brace who cannot be properly restrained will not be permitted to ride on some attractions while wearing the brace in accordance with manufacturer requirements. Guests with prosthetic devices will be permitted to ride most attractions as long as the prosthetic device is properly secured and will remain in place during the ride.

For *Fahrenheit*, *Storm Runner*, *Hershey Triple Tower*, and *Laff Trakk*SM, guests wearing one prosthetic leg must remove the prostheses or have written documentation from the limb manufacturer ensuring that the limb can withstand forces up to 5 Gs and not come off during the ride cycle. If guests must remove the prosthetic leg, the restraint must be in contact with a residual limb below the knee to keep the guest properly restrained. Guests wearing two prosthetic legs must wear at least one of their prosthetic legs during the ride cycle and have manufacturer issued documentation regarding the prosthetic's ability to withstand forces up to 5 Gs. As a reminder, all guests wearing prosthetics on the ride must have manufacturer issued documentation regarding the prosthetic's ability to withstand forces up to 5 Gs.

Guests riding the *Hershey Triple Tower* must remove their prostheses or have written documentation from the limb manufacturer ensuring that the limb can withstand forces up to 5 Gs and not come off during the ride cycle. If guests must remove lower prostheses, the restraint must come in contact with residual limbs below the knee to keep the guest properly restrained. For *Hershey Triple Tower*, *Jolly Rancher Remix* and *Twizzlers Twisted Gravity*, guests must have one naturally occurring arm with at least three fingers in order to ride.

Guests must remove their prosthetic device prior to riding *Candymonium*, *Skyrush*, *Great Bear*, and *The Claw*. Guests with certain amputations that may otherwise be unable to ride *Candymonium* may be permitted to ride with the use of a full body harness if the rider meets certain physical requirements. Upper prostheses are not permitted on *Jolly Rancher Remix*. Please visit Accessibility Services for more information.

For *Mix'd*TM Flavored By *Jolly Rancher*, guests must have one naturally occurring arm, forearm, and hand in order to ride. Guests must have one naturally occurring leg and foot in order to ride. Guests wearing a lower prosthetic device must remove it prior to riding.

Guests with casts or hard braces will not be permitted to ride *Candymonium*, *Great Bear*, *Hershey Triple Tower*, *Skyrush*, *sooperdooperLooper*[®] and *Twizzlers Twisted Gravity*. For *Jolly Rancher Remix*, guests wearing certain types of hard braces and/or casts may not be permitted to ride.

For *Comet*, guests with hard casts or braces that do not allow full mobility of their shoulder, elbow, knees, or hips are not permitted to ride.

For *Twizzlers Twisted Gravity*, guests with a cervical collar or neck brace, a leg cast, or a full arm cast are not permitted to ride.

For *Wildcat's Revenge*SM, guests must have two natural legs including feet, as well as one natural arm with one functional hand in order to ride. Prosthetic devices of any kind are not permitted on this attraction. Guests with hard casts or braces that do not allow full mobility of their shoulder, elbow, knees, or hips are not permitted to ride.

ADDITIONAL INFORMATION

PROSTHETICS/BRACES AND CASTS

For *Laff Trakk*, guests must have two (2) naturally occurring arms and hands in order to participate. Riders with prosthetic legs should refer to the Prosthesis section on page 10.

MAGNETIC FIELDS ON RIDES

Guests with medical devices sensitive to magnetic fields (pacemakers, hearing aids, etc.) should please consider that the following attractions use magnetic fields in their operations: *Breakers Edge*® Water Coaster, *Candyonium*, *Fahrenheit*, *Laff Trakk*, *Skyrush*, *sooperdooperlooper*, *Storm Runner*, *Trailblazer*, and *Wildcat's Revenge*.

ADDITIONAL INFORMATION

GUESTS OF EXCEPTIONAL SIZE

In order to ride, all seat belts, lap bars, and shoulder harnesses must be positioned and fastened properly. Due to rider restraint system requirements, guests of exceptional size (height and/or weight) may not be accommodated on the following rides: *Breakers Edge Water Coaster*, *Candymonium*, *Coastline Plunge*, *Comet*, *Fahrenheit*, *Jolly Rancher RemixSM*, *Laff Trakk*, *Lightning Racer*, *Mix'dTM*, *Reese's CupFusion*, *Skyrush*, *sooperdooperlooper*, *Storm Runner*, *Sweet SwingSM*, *The Claw*, *Tidal Force*, *Trailblazer*, *Twizzlers Twisted Gravity*, *Whitecap Racer*, *Wild Mouse*, and *Wildcat's Revenge*. Test seats are located at the ride entrance of *Candymonium*, *Fahrenheit*, *Great Bear*, *Hershey Triple Tower*, *Laff Trakk*, *Skyrush*, *Storm Runner*, and *Wildcat's Revenge*, and we recommend utilizing these before entering the attraction queue.

OXYGEN TANKS

Due to dynamic forces, portable oxygen tanks are only permitted on the following attractions: *Carrousel* (chariots only), *Dry Gulch Railroad*, *Kissing Tower*, *Monorail*, and *Twin Turnpike* (Classic Cars). The tank must fit safely in the attraction unit and not interfere with the attraction's operation or restraint system.

MECHANICAL / POWER FAILURE / ADVERSE WEATHER

Though it is rare, a mechanical problem, power failure, or sudden adverse weather condition may lead to a stoppage of the attractions. In that event, riders may be required to maneuver across catwalks or travel down steeply inclined ramps or steps. Please consider these factors when deciding to ride.

DEFINITIONS

Hersheypark uses the following terms:

Attraction: An amusement ride that is governed and inspected by the Commonwealth of Pennsylvania, Department of Agriculture. An inspection placard is located at each attraction's entrance.

Hand-Held Infant: A hand-held infant is a child who is unable to walk to the attraction independently or maintain independent seated postural control.

Supervising Companion: The accompanying person must meet all the attraction requirements, as well as assist the guest. This includes helping the guest in the loading and unloading of the attraction, assisting the guest in maintaining postural control while the attraction is in motion, and assisting the guest down stairs, catwalks, or steeply inclined ramps in case of mechanical / power failure / adverse weather.

HERSHEYPARK®

As we strive to accommodate all of our guests, designated smoking areas have been established throughout *Hersheypark*.

The Boardwalk At Hersheypark and *ZooAmerica* are smoke-free.

RIDERSHIP CRITERIA

The evaluation of a guest's ability to ride each attraction safely is based on the following criteria:

1. Control of upper torso including head and neck (ability to hold head upright): The guest must have sufficient muscle control to support their head, neck, and upper torso in the proper position throughout the duration of the ride cycle, including during the dynamic motion of the attraction (fast accelerations, quick decelerations, steep inclines, etc.).
2. Ability to maintain the proper riding position: The guest must have the body and spinal control to maintain the proper riding position throughout the duration of the ride cycle without the aid of others or devices, and be able to maintain the proper riding position, including during the dynamic motion of the attraction (fast accelerations, quick decelerations, steep inclines, etc.).
3. Weight distribution to allow the restraint device to function as designed: The weight distribution of the guest's body must not interfere with any of the attractions safety and restraint devices as they are designed.
4. Ability to hold on: The guest must have the ability to use their arms and hands to maintain a grasp on an assist bar to maintain the proper riding position throughout the duration of the ride cycle, including during the dynamic motion of the attraction (fast accelerations, quick decelerations, steep inclines, etc.).
5. Ability to brace: The guest must have the ability to use their legs to brace their body throughout the duration of the ride cycle, including during the dynamic motion of the attraction (fast accelerations, quick decelerations, steep inclines, etc.).
6. Ability to enter and exit the attraction without endangering self or others: The guest must be able to enter and exit the attraction without jeopardizing themselves or other people and be able to assist with their own evacuation, if necessary. This may include entering through an exit or having someone assist the guest when boarding the attraction. If a guest needs to be lifted into or out of an attraction, this must be done by a Supervising Companion or other member in the guest's party. Park Personnel are not permitted to assist with the lifting or transferring out of wheelchairs or other mobility devices.
7. Appropriate observed behavior: Guests must demonstrate appropriate observed behavior by indicating a willingness and ability to understand, participate, and follow all rider requirements. This may include, but is not limited to, maintaining the proper riding position, attention to and compliance with safety instructions, proper use of restraints and safety equipment, and willingness to participate in the attraction.

LOOSE ARTICLES

For safety reasons, loose articles and hand-held items are not permitted on most of our attractions. These items include, but are not limited to, cell phones, selfie sticks/Go-Pros, keys, cameras, bags/purses, wallets, backpacks, stuffed animals, prizes, umbrellas, beverage containers, food, drinks, and other small items.

The loose articles policy for each attraction can be found under the “Additional Restrictions/Accessibility” link located on the information pages for each attraction on *Hersheypark’s* website, in the Rider Safety & Accessibility Guide, and on the Height Signs located at each attraction.

Except as otherwise noted for a specific attraction, only items that can be secured in cargo pockets, a waist pack, or a zipping jacket pocket are permitted provided they do not interfere with the restraint system, proper riding position, or cause a hazard to guests, employees, and/or the attraction. A cargo pocket must fasten with a velcro or button flap or a zipper. A waist pack must fasten around the waist and have a zipper closure. Additionally, eyeglasses, sunglasses, and long hair, clothing, or accessories must be secured. Loose articles that cannot be secured must be placed in a bag drop area or bin, secured in a locker, or kept with a non-rider.

Hersheypark and its employees are not responsible for lost, stolen, or damaged items, which include items that fall out of pockets or items left in bag drop/bin areas, and do not assume responsibility for the loss of, or damage to, such items, or injuries that result from the failure of guests to comply with *Hersheypark’s* loose articles policies.

HEALTH & HEIGHT CRITERIA

ATTRACTION INFORMATION

A description of each major attraction is arranged alphabetically on the following pages. Each description contains the Health Recommendation Key, Height Restriction Key, Attraction Rating, and directions to the accessible entrance.

HEALTH RECOMMENDATION KEY

It is recommended that guests with the following conditions refrain from riding the indicated attractions:

Back, neck, or bone condition

Heart trouble

Pregnancy

High blood pressure

Recent surgery or illness

Identifies attractions where guests may remain in a wheelchair.

Identifies attractions that can accommodate guests who are able to leave their wheelchair and walk or be assisted by their companion to the ride entrance. This may require navigation of steps or raised ride platforms.

Identifies attractions that can accommodate guests who are able to transfer from a wheelchair to the ride unit or aquatic wheelchair. A Supervising Companion or other member of the guest's party must assist with the transfer. Park Personnel are not permitted to assist guests with transferring from their wheelchairs.

HEIGHT RESTRICTION KEY

Each attraction height requirement is represented by a *Hershey's* candy brand. Guests can stop by any Guest Services location inside *Hersheypark* to be officially measured and assigned a height category.

0" to 36"

48" to 54"

36" to 42"

54" to 60"

42" to 48"

60" and over

★ Guests must be accompanied by a Supervising Companion.

✦ No hand-held infants.

Ω Must wear a Coast Guard approved life jacket while swimming in this attraction.

Height requirements are posted at each attraction. All guests, including those participating in the Attraction Accessibility Program, must meet the height requirements.

ATTRACTION RATINGS

From MILD to WILD, our way to rate the attractions!

Please refer to numbers next to each attraction name.

Some rides may appear tame but are actually quite thrilling. The Attraction Rating System allows guests to select attractions based on their experience level, physical condition, and abilities. Every attraction is grouped into one of five categories:

CHILDREN'S ATTRACTIONS - This is a low-speed, gentle attraction intended for young children and may accommodate Supervising Companions where permitted.

MILD THRILL ATTRACTIONS - This is a low to medium speed attraction with expected changes in elevation and speed. This attraction may not be intended for unaccompanied children.

MODERATE THRILL ATTRACTIONS - This is a medium speed attraction where riders may experience unexpected changes in elevation and speed. This attraction may contain moderate twists, turns, bumps, spins, and loops, and requires full rider body control.

HIGH THRILL ATTRACTIONS - This is a fast paced attraction experience with unexpected changes in speed, direction, and/or elevation. This attraction may contain significant twists, turns, bumps, spins, and loops, and requires full rider body control.

AGGRESSIVE THRILL ATTRACTIONS - This is a high-speed attraction experience. Riders will experience many unexpected, rapid changes in speed, direction, and/or elevation requiring full rider body control. This attraction is not recommended for guests with physical, cognitive, and/or medical limitations.

Please refer to numbers next to each ride name.

ATTRACTIONS

Balloon FliteSM

This is a low-speed, elevated, circular ride where riders can pretend to be in a hot air balloon. This ride is reserved for children. Guests need to transfer in and out of the ride. Each guest needs to be able to hold their head upright and have an appropriate center of gravity for bracing to maintain a seated position throughout the ride.

Health Recommendations: None

Height Restrictions:

Ride Access: Non-ambulatory guests should enter through the ride exit after receiving permission from the ride attendant.

Loose Articles: Loose articles and hand-held items are not recommended. Food and drinks are not permitted.

Accessibility:

Sensory Information:

ATTRACTIONS

Bayside PierSM

Splash around in our children's wave pool. *Bayside Pier* features a small slide and various water elements near the pool edge. Guests must be able to swim. Only appropriate swimwear is permitted on this attraction for all guests. Revealing bathing suits, shorts with rivets, snaps, zippers, metal ornamentation, cutoffs, and jeans are not permitted. The Pennsylvania Department of Health has instituted a maximum number of allowed guests in this attraction. Once this number is achieved a queue will be formed. As guests exit the attraction, additional guests will be permitted to enter. Due to capacity and safety standards, timed swim sessions may be initiated to ensure that each guest may safely enjoy time in this attraction. In an effort to provide the safest and best guest experience, guests of the Miniatures height category must wear a Coast Guard approved life jacket. Weaker swimmers must wear a Coast Guard approved life jacket. Walking surfaces may become hot in the sun. Foot protection is recommended in queues and all walking surfaces.

Maximum Water Depth: 3 1/2 feet

These Health Recommendations apply to the entire attraction:

These Health Recommendations apply to the slide on this attraction:

ATTRACTIONS

Breakers EdgeSM Water Coaster

Breakers Edge Water Coaster is a water ride which mimics similar actions of a traditional roller coaster including sudden drops, and tight turns. Each rider should have the physical abilities to support themselves in an upright riding position, while grasping the handles at all times, during the course of the ride and landing area. Riders will encounter strong acceleration and deceleration forces from the front, rear, and all sides during the ride cycle. The riders sit upright in a raft while holding onto the handles. Each rider needs to be able to hold their head upright and have an appropriate center of gravity for bracing to maintain a seated position throughout the ride and be able to brace for rapid deceleration at the end of the ride. Only appropriate swimwear is permitted on this attraction. Revealing bathing suits, shorts with rivets, snaps, zippers, metal ornamentation, cutoffs, and jeans are not permitted. Individual rafts **DO NOT STOP** at the loading and unloading locations. If you need the rafts to be stopped, please alert the ride operator. Riders need to transfer in and out of the ride. The combined weight of the riders in one ride vehicle must be between 100 and 700 pounds. Scales are located at the attraction entrance and station. Single riders not permitted and will be paired with another group

Health Recommendations:

Height Restrictions:

*

Ride Access: Non-ambulatory riders should enter through the ride exit or elevator and contact the ride attendant for assistance.

Weight Limit: The combined weight of the riders in one ride vehicle may not exceed 700 pounds.

Loose Articles: Hand-held items are not permitted while riding the attraction. Food and drinks are not permitted.

If you plan on riding the attraction, only items that can be secured in cargo pockets, a waist pack, or a zipping jacket pocket are permitted provided they do not interfere with the restraint system, proper riding position, or cause a hazard to guests, employees, and/or the attraction. A cargo pocket must fasten with a velcro or button flap or a zipper. A waist pack must fasten around the waist and have a zipper closure.

Eyeglasses, sunglasses, and long hair, clothing, or accessories must be secured.

Loose articles that cannot be secured must be placed in a bag drop area or bin, secured in a locker, or kept with a non-rider.

ATTRACTIONS

Sandcastle CoveSM

1

This attraction is a water area designed for children. The area around the sandcastle consists of water features for guest interaction. The sandcastle itself has two small water slides and a small tipping bucket that intermittently drops water on the guests below. Only appropriate swimwear is permitted on this attraction for all guests. Revealing bathing suits, shorts with rivets, snaps, zippers, metal ornamentation, cutoffs, and jeans are not permitted. The Pennsylvania Department of Health has instituted a maximum number of allowed guests in this attraction. Once this number is achieved, a queue will be formed. As guests exit the attraction, additional guests will be permitted to enter. Due to capacity and safety standards, timed swim sessions may be initiated to ensure that each guest may safely enjoy time in this attraction. Walking surfaces may become hot in the sun. Foot protection is recommended in queues and all walking surfaces.

Maximum Water Depth: 1 1/2 feet

Health Recommendations:

Height Restrictions:

Ride Access: Non-ambulatory guests may access Sandcastle Cove from the zero-depth entry points. Guests utilizing wheelchairs or other mobility devices must transfer to an aquatic wheelchair and enter through the blue door after the Lifeguard has granted permission to enter.

ATTRACTIONS

Twin TurnpikeSM Speedway *presented by Sunoco*

2

This ride consists of gas engine, smaller scale sports cars driven around a track. Riders operate the cars themselves by stepping on the gas pedal and steering. Riders need to transfer in and out of the ride. Each rider needs to be able to hold their head upright and have an appropriate center of gravity for bracing to maintain a seated position throughout the ride cycle.

Health Recommendations:

ATTRACTIONS

Twizzlers Twisted Gravity™

This is a vertical swing attraction. Riders swing to the maximum height of 135 feet and drop back in a reverse fashion. Speeds reach 68 miles per hour. Riders must have the ability to brace themselves upright in the seat and support their head and neck during the ride movements without the aid of other guests or devices. Riders must have the body and spinal control to maintain this posture during drops, bumps, or other movements of the ride cycle. Riders must have at least two functioning legs and one fully functioning arm; to include at least three fingers and the ability to grip. Any leg amputation must be at or below the knee. Guests riding must remove their prostheses or have written documentation from the limb manufacturer ensuring that the limb can withstand forces up to 5 Gs and not come off during the ride cycle. If guests must remove lower prostheses, the restraint must come in contact with residual limbs below the knee to keep the guest properly restrained. Guests with a cervical collar or neck brace, a leg cast, or a full arm cast are not permitted to ride. Riders with prosthetic devices should refer to the Prosthetics section on page 10.

ATTRACTIONS

Whitecap Racer

Whitecap® Racer features a multi-track, multi-bump, water ride system designed to convey the rider on a serpentine ride path, while riding in the prone position headfirst on a toboggan racer mat and descending into a runout deceleration lane. Riders will encounter sudden drops and tight turns. Guests must have the physical and cognitive abilities to remain in a prone/headfirst position, while controlling their limbs throughout the course of the ride, and grasping the handles at all times. Each rider needs to be able to hold their head upright and have an appropriate center of gravity for bracing to maintain designated riding position throughout the ride cycle and be able to brace for rapid deceleration at the end of the ride. Only appropriate swimwear is permitted on this attraction. Revealing bathing suits, shorts with rivets, snaps, zippers, metal ornamentation, cutoffs, and jeans are not permitted.

Health Recommendations:

Height Restrictions:

Ride Access: Whitecap Racer is not accessible by wheelchair or other mobility device. Non-ambulatory riders must enter through the ride entrance which includes a flight of stairs. Riders with disabilities who wish to ride Whitecap Racer **must wait in line and carry mat.**

Weight Limit: The weight of a rider may not exceed 300 pounds.

Loose Articles: Hand-held items are not permitted while riding the attraction. Food and drinks are not permitted.

If you plan on riding the attraction, only items that can be secured in cargo pockets, a waist pack, or a zipping jacket pocket are permitted provided they do not interfere with the restraint system, proper riding position, or cause a hazard to guests, employees, and/or the attraction. ATTRACTIONS

Wildcat's RevengeSM

This is a wood and steel hybrid coaster that takes riders through one-of-a-kind thrills found only at *Hersheypark*. The ride features a 140 foot lift hill with an 82 degree drop, maximum speeds of 62 miles per hour, and four inversions including the world's largest underflip. Riders will be taken up the chain lift hill on one of three custom trains with a ride time of 2 minutes and 36 seconds. This is a high speed attraction where riders will experience rapid changes in elevation, speed, and/or direction. Guests need to transfer in and out of cars. Each guest needs to be able to hold their head upright and have an appropriate center of gravity for bracing to maintain a seated position during a fast ride, and be able to brace for possible rapid decelerations. Guests must have two natural legs including feet, as well as one natural arm with one functional hand in order to ride. Prosthetic devices of any kind are not permitted on this attraction. Guests with hard casts or braces that do not allow full mobility of their shoulder, elbow, knees, or hips are not permitted to ride. Please refer to the Prosthetic section on page 10. This ride may not accommodate riders of exceptional size (height/weight).
