## BOUYGUES CONSTRUCTION MAKES CHANGES TO ITS GOVERNANCE

**Following on from the appointment of Pierre-Éric Saint-André as Chief Executive Officer of Bouygues Construction, the company has made changes to its operational governance with effect from January 1, 2026, to support its ambitions in France and on international markets in the Building and Civil Works sectors.**

**Bertrand Burtschell**, Deputy CEO of Bouygues Construction and CEO of Bouygues Travaux Publics.

Bertrand Burtschell joined the Group in 1994 in Hong Kong. Over the next decade he took part in a number of major infrastructure projects, first in France and later in Hong Kong and Switzerland. From 2006, he successively headed up operations regarding major projects in the Paris region, then for France and Europe, and subsequently for Bouygues Travaux Publics Régions France and PraderLosinger Sion in Switzerland. He was named Deputy CEO of Bouygues Travaux Publics in 2020, and CEO in 2023.

On January 1, 2026, Bertrand Burtschell became Deputy CEO of Bouygues Construction and CEO of Bouygues Travaux Publics. His area of responsibility includes specialist activities (Mining and VSL International).

Bertrand Burtschell said: "At Bouygues Travaux Publics, we tackle regional issues by carrying out large-scale infrastructure projects throughout the world, for the benefit of our customers and for future generations. We are able to draw on the collective strength and commitment of our teams to meet these challenges. At the same time, we are continuing to transform our company so that we can constantly adapt to our stakeholders' needs."

**Philippe Jouy**, Deputy CEO of Bouygues Construction with responsibility for Bouygues Bâtiment International.

Philippe Jouy began his career as an environmental engineer in the United States. He joined the Bouygues group in 1993 and held a number of positions in the finance function, including a period in the Audit department at Bouygues SA from 1999. He transferred to Bouygues Construction in 2002 as financial director for the Americas at Bouygues Bâtiment International. In 2005, he became finance director of Bouygues UK, and from 2007 he held general management roles in the UK and then in France.

In 2015, he was appointed president of Bouygues Bâtiment Nord-Est. He transferred to Hong Kong as CEO for the Asia Region at Bouygues Bâtiment International in 2021, and in June 2022 he was appointed Deputy CEO of Bouygues Construction, with responsibility for Bouygues Bâtiment France.

Since January 1, 2026, he has been responsible for all international Building activities.

Philippe Jouy said: "Bouygues Bâtiment International's development is driven by a combination of global expertise and strong local roots, enabling the company to design and deliver high-value projects worldwide. Our teams work alongside our clients to transform ambitious visions into sustainable, high-performance buildings. My focus will be on maintaining this momentum by upholding the highest standards, guided by the Group's four values: Respect, Commitment, Sharing and Pioneering."

**Daniel Lopes**, Chief Executive Officer of Bouygues Bâtiment France.

Daniel Lopes joined Bouygues Construction in 1996 as a site engineer in the housing sector at Bouygues Bâtiment Île-de-France. He held a series of operational and managerial positions, and by 2010 he had become deputy CEO for the social housing business line.

In 2011, he transferred to the tertiary sector as CEO for public facilities operations in the Paris region. In March 2019, he switched to the social housing sector as CEO of Bouygues Bâtiment Île-de-France - Habitat Social. He was responsible for merging the social housing and refurbishment business lines, and in July 2019 he was named CEO of the new entity. In November 2022, he became Chairman of Bouygues

Bâtiment Sud-Est in Lyon

On January 1, 2026, he was appointed Chief Executive Officer of Bouygues Bâtiment France.

Daniel Lopes said: "At the heart of the regions, Bouygues Bâtiment France meets the country's essential needs, providing places where people can live, learn, work and gather together. We share a clear ambition with our clients and partners: we aim to build useful, sustainable structures that are tailored to local circumstances, that serve the public interest and that contribute to the low-carbon transition. It's what our signature, "Building for Life", is all about."

## **BUILDING FOR LIFE**

### **ABOUT BOUYGUES CONSTRUCTION**

Bouygues Construction employs 35,600 people around the world, all driven by the greatest and most exciting responsibility of all – building for life. In more than 50 countries, we improve daily life for millions of people by creating structures and buildings that serve life and address all our needs: shelter, healthcare, education, work, entertainment, travel, access to low-carbon energy, etc. At every stage of a project, we put all our expertise and our experience into designing, renovating and building differently so that we can meet the critical imperatives of the environmental transition and achieve construction that is sustainable and less resource-intensive. Every day, we make sure that everyone is safe, and that human rights and ethical standards are respected. Committed to strong values, the men and women of Bouygues Construction work passionately alongside their customers and partners so that our footprint becomes ever more positive. In 2024, Bouygues Construction generated sales of €10.3 billion.
